

Reciprocating Compressor Product Series – ZXH Series Reciprocating Compressor

Separable (High Speed, ISO 13631, API-618 Optional Available) Reciprocating Compressor

- High Speed Compressor: Used for natural gas collection, processing and storage, compressed natural gas and liquefied natural gas. The power range is 11250 hp (8389 kW).
- ZXH-H – Medium Oilfield Separable
- ZXH-I – Heavy Oilfield Separable
- ZXH-J – Super Heavy Oilfield Separable

Balanced Compressor System

- Horsepower: 540 – 11300 HP
- Speed: 1000 – 1800 RPM
- Rated Pressure: Outlet pressure slightly higher than atmospheric pressure—8000 psi

Model	Stroke inch	Throws	Max. Horse Power kW	MACCRL Lbs. kN	Cyl. Bore Range inch
ZXH-H	5/6/7	2,4 or 6	4440 (3311)	45000 (200)	4.75 to 20.5
ZXH-I	5/6/7	2,4 or 6	7200 (5370)	60000 (267)	4.75 to 28
ZXH-J	6/7	2,4 or 6	8700 (6488)	75000 (377)	4.75 to 28
